

New Recycling Program - Effective January 1, 2014

The township does not offer a curbside pick-up service. However, the township offers a community dumpster to dispose of waste. Bags can be purchased at the dump site in lots of 10 for \$25.00. Residents will need to register and get a TAG which identifies you as a Town of Manchester resident. The car hanger tag should be placed on your mirror so it is visible to the attendant. You may also bring all your recyclables to the dump site in your own receptacles for drop off at no cost. Recyclables include: aluminum, tin, glass, paper, plastic and cardboard.

An attendant is on site to assist you and sell the bags. Larger items may be disposed of, but an addition fee will be charged. Posters display those items and the additional cost of each.

This community dumpster and recycling site is designed to be self sufficient. The intent is that no tax dollars will need to be spent to operate the site. Those that use this site pay for the cost to operate it. There is no fee for the TAG.

The site is located at N2929 West Pine Hill Rd.

Open every Saturday from 8AM-12:30 PM.
